POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders are stored at USUHS, supported by automated copies of subsets of each student's folder, which are maintained on magnetic tape and disk at the Office of the Registrar, USUHS.

RETRIEVABILITY:

The system will be indexed by name and Social Security Number. Also, any combination of data can be used to

select individual records. Only personnel in the Office of the Registrar will be with the password that allows access to the data, and those individuals are authorized access to all data in the file.

SAFEGUARDS:

The computer facility at the USUHS is operated by the Office of the Registrar. The tapes and hard copies of material are secured in government-approved security containers constructed of four-hour heat-resistant steel material. The physical location of the computer hardware, disks, and printer are located to the extreme rear of the room with access being blocked by a large counter staffed by two office personnel. All access to the computers in the Office of the Registrar is via user identification and sign-on password. Computer software ensures that only properly identified users can access the Privacy Act files on this system. Passwords are changed semiannually, or upon departure of any person knowing the password.

RETENTION AND DISPOSAL:

Files are cut off upon graduation, transfer, withdrawal, or death of student, and held for 20 years, after which they are transferred to the Washington National Records Center. Fifty years after cut-off, the records are destroyed.
